DETAILED ACTION

Election/Restrictions

1. Claim 26 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 22, 2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 8, 10, 18, 19, 21 and 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Belokin, Jr. et al. (U.S. 5,123,461). Belokin teaches a container body 3, an opening at 8, a panel 39 and a pull feature 43. Regarding the limitations concerning the method by which opening and panel are formed, it has been held that "even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 227 USPQ 964, 966 (Fed. Cir. 1985).

4. Claims 1, 3-5, 8, 10, 11, 18, 19, 21 and 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Bianchi (U.S. 5,782,373). Bianchi teaches a container body 1, an opening, a panel 2 and a pull feature 3. Regarding the limitations concerning the method by which opening and panel are formed, it has been held that "even though product-by-process claims are limited by and defined by the process,

determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 227 USPQ 964, 966 (Fed. Cir. 1985).

5. Claims 1, 3, 6 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Manska (U.S. 4,883,198). Manska teaches a container body 10, an opening at 16, a panel with pull feature (col. 2 lines 48-55). Regarding the limitations concerning the method by which opening and panel are formed, it has been held that "even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 227 USPQ 964, 966 (Fed. Cir. 1985).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 13, 15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bianchi (U.S. 5,782,373) in view of Tedford, Jr. (U.S. 6,328,203). Bianchi discloses the claimed invention except for the adhesive of the ring. Tedford, Jr. teaches that it is known to provide a pull tab with adhesive. It would have been obvious to one having ordinary skill in the art at the time the invention was made to

provide the container of Bianchi with the panel and ring arrangement of Tedford, Jr., in order to provide the container with a low cost opening feature.

Response to Arguments

8. Applicant's arguments filed December 14, 2005 have been fully considered but they are not persuasive. Applicant argues that Belokin, Bianchi and Manska do not teach a lid that is attached to the container by heat staking. The limitations regarding the lid being heat staked to the container are process limitations within the body of a product claim. The determination of patentability in a product-by-process claim is based on the product itself, even though the claim may be limited and defined by the process. That is, the product in such a claim is unpatentable if it is the same as or obvious from the product of the prior art, even if the prior product was made by a different process. In re Thorpe, 777 F.2d 695, 697, 227 USPQ 964, 966 (Fed. Cir. 1985). A product-by-process limitation adds no patentable distinction to the claim, and is unpatentable if the claimed product is the same as a product of the prior art. For this reason, it is the examiner's position that Belokin, Bianchi and Manska meet the limitations presented in the amended claims.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3727

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
